

TRANSITION TO SUCCESS

TRANSITION FROM RESTRICTIVE PLACEMENTS (TRP)

Phoenix Associates has developed a structured program to assist youth currently in restrictive placement as they transition to a less restrictive setting. The goal of this program is to help youth be successful in the community and prevent returns to restrictive settings.

Therapeutic/clinical services are utilized in addition to the case management/transition services when appropriate. Phoenix provides clinical services to address specialized populations such as substance abuse, sexually maladaptive behaviors and family dysfunction as well general mental health issues.

Services can begin 30 days prior to scheduled placement release. Phoenix staff will assist placement team, referral source and youth in step down plans. Support, guidance and preparation services will be in place for the family prior to the youth's return home or to the community.

*Don't be afraid
of change,
because it is
leading you to a
new beginning.
~ Joyce Meyers*

Services are tailored to meet the youth's individual needs. Programming is designed to provide support, access to community resources, and aftercare linkage. Services are family focused and child centered. Services include:

- * Addiction Education
- * Family Reunification
- * Vocational Services
- * Educational Services
- * Conflict Management
- * Parenting Education
- * Independent Living Skills
